INTRODUCTION

Hi! My name is Mert KAYA. I am 24 years old. I have graduated from TOBB ETU Computer Engineering Department at November 2021. I am very passionate about coding, developing software and AI . I love solving problems and working hard until the current problem is solved.

EDUCATION

Master of Science in Computer Science (3 Year Program)

Aug. 2022 – Contd

International University of Applied Sciences Berlin
(Remote)Berlin, Germany

Bachelors Degree of Computer Science / Computer Engineering

Sep. 2016 – Nov. 2021

TOBB University of Economics and Technology
Ankara, Turkey

WORK EXPERIENCE

Backend Engineer

Dec 2021 – Sept 2022.

Alictus

Ankara, Turkey

- Single handedly coded transferred every project into cloud. Worked with Cloud,Golang,SQL,Azure,Bash. Created a new Cloud VM which handles daily pipelines for each data process in company. Worked as a data engineer too in the meantime. Since Alictus has been sold to SciPlay for 100M\$ + 200\$, I have decided that I would like to work on a more project based software companies since my role has a chance to become more of a maintenance based.
- Worked with golang,docker,azure,databricks, sql, python.

Software Engineering Internship (Long Term - Paid)

Sep 2021 – Dec 2021.

SimBT A.S.

Ankara, Turkey

Software Development - Game Development Internship
